

國立中央大學數學系

專題演講

主 講 人：張德健教授 (Georgetown University)

演講題目：Inspiration and Discovery : Some Math Professors
I Met at Princeton University

演講時間：2026年06月23日(星期二) 11:00 ~ 12:00

演講地點：中央大學鴻經館 M107

Abstract：

In this talk, “Inspiration and Discovery : Some Professors I Met at Princeton University”, the speaker will share his experiences and insights gained from the remarkable mathematics professors at Princeton. These educators not only shaped his academic journey but also inspired a profound appreciation for the beauty and complexity of mathematics.

Through personal anecdotes and stories of innovative research, the speaker will highlight how their unique teaching styles and groundbreaking work influenced his understanding of the subject. From their passion for problem-solving to their dedication to mentoring students, each professor offered a distinct perspective that illuminated the path of discovery in mathematics.

Join the speaker as he explores the intersection of inspiration and discovery in academia, illustrating how the spirit of inquiry and collaboration at Princeton fosters a vibrant intellectual community. Whether you are a student, educator, or simply curious about the world of mathematics, this talk aims to ignite a spark of curiosity and appreciation for the transformative power of education.
